Lead can harm young children's growth and development.

Do not delay blood lead testing for children

LEAD POISONING SYMPTOMS

HIGH BLOOD PRESSURE

JOINT AND MUSCLE PAIN

DIFFICULTIES WITH MEMORY OR CONCENTRATION

ABDOMINAL PAIN

MOOD DISORDERS

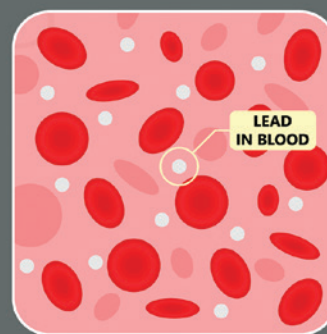

REDUCED SPERM COUNT AND ABNORMAL SPERM

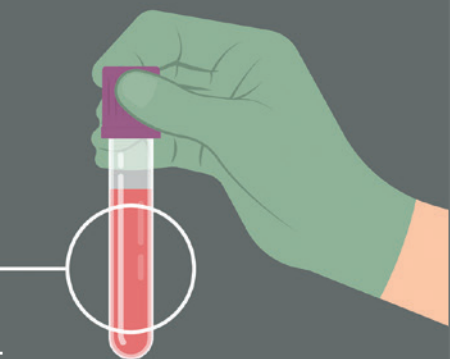

HEADACHE

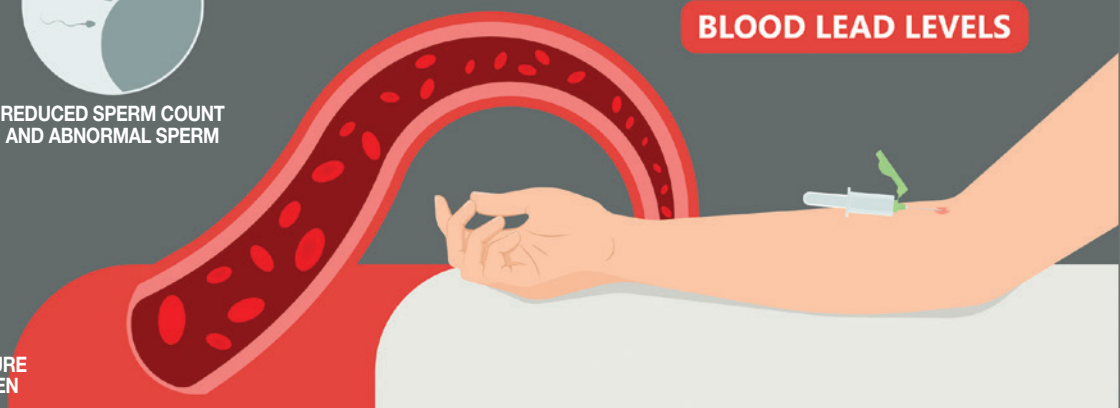

MISCARRIAGE OR PREMATURE BIRTH IN PREGNANT WOMEN

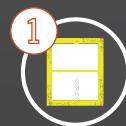

A TEST THAT MEASURES THE AMOUNT OF LEAD IN THE BLOOD

BLOOD LEAD LEVELS

Lead can be found throughout a child's environment.

Homes built before 1978 (when lead-based paints were banned) probably contain lead-based paint.

Lead can be found in some products such as toys and toy jewelry.

When the paint peels and cracks, it makes lead dust. Children can be poisoned when they swallow or breathe in lead dust.

Lead is sometimes in candies imported from other countries or traditional home remedies.

Certain water pipes may contain lead.

Certain jobs and hobbies involve working with lead-based products, like stain glass work, and may cause parents to bring lead into the home.

For any questions or concerns about lead poisoning, please contact the Kent County Health Department, 410-778-1350, 125 S. Lynchburg Street, Chestertown, MD 21620

## Mid Shore Behavioral Health, Inc. Hosts Annual Across the Lifespan Conference: Building a Trauma-Informed Community

Mid Shore Behavioral Health, Inc. (MSBH) successfully concluded its 13<sup>th</sup> Annual Across the Lifespan Conference (ATL), held at the Miles River Yacht Club in Easton, Maryland in mid-April. This year's conference, themed "Building a Trauma-Informed Community,"

The speakers at the 13<sup>th</sup> ATL (L to R): Kris Locus, CPRS, CTRC, Christina Morris, LCSW-C, Lesa Lee, LCSW-C, Latrice Gray, LCSW-C, RPT, Deborah Nicholson, Ombudsman.

brought together professionals and experts to explore the impact of trauma across different stages of life and explore strategies to address various forms of trauma.

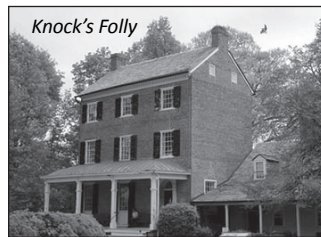

With a diverse audience of 95 attendees, including clinicians, psychologists, social workers, and professionals from the behavioral health system, the conference featured speakers who provided personal testimonies and valuable insights into the effects of trauma on different age groups.

The speaker lineup featured: Latrice Gray, LCSW-C, RPT, CEO of Creative Space Child Therapy LLC, who discussed early childhood trauma and highlighted the importance of understanding the developmental needs of infants and toddlers to recognize early signs of trauma; Lesa Lee, LCSW-C, Chief Clinical Officer of For All Seasons, focused on trauma among children and young adults, exploring its complexities during crucial developmental stages; Kris Locus CPRS, CTRC, from On Our Own Maryland, provided an overview of the challenges faced by the LGBTQ population during the transition to adulthood; Christina Morris, LCSW-C, offered insights into the unique trauma experienced by military personnel, covering traumatic experiences during active duty and civilian life; and Deborah Nicholson, Ombudsman of Upper Shore Aging, Inc., addressed the often overlooked and not talked about issue of trauma in older adult populations.

Participants were encouraged to take what they learned from the speakers and tabletop discussions to help build a better trauma-informed community, fostering understanding and support for individuals across all stages of life.

As the Core Service Agency for the mid-shore region, MSBH's mission is to continually improve the provision of behavioral health services for residents of Caroline, Dorchester, Kent, Queen Anne's, and Talbot Counties through effective coordination of care in collaboration with consumers, their natural support systems, providers, and the community at large. Visit [www.midshorebehavioralhealth.org](http://www.midshorebehavioralhealth.org) for more information about MSBH and its initiatives

## Discover Turner's Creek!

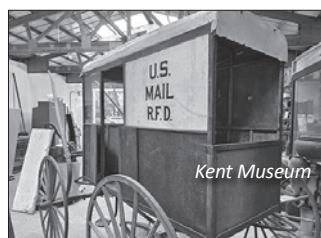

Knock's Folly

Join the Museums of Kent on Saturday, May 18<sup>th</sup> 10am to 4pm to celebrate the Turner's Creek area. Experience this Park and Sassafras Natural Resources Management Area by hiking its trails, canoeing the waterway, and exploring Kent Museum and Knock's Folly. At the waterfront this FREE event will have canoes and guides provided by Sultana Education Foundation, and information about Captain John Smith's voyage up the Sassafras and the Tockwogh Natives he met here.

The granary that was once here is gone, but the stories of Turner's Creek Wharf have been brought together in a new brochure. Jack Shaum, author of several books about Steamboats, will be talking about the Sassafras Steamboat Line which came into Turner's Creek. Shaum will be speaking at 11am and 1pm at the Pavilion.

Did you know that there is a Historic Tree Grove at Turner's Creek? View trees from seeds of the Wye White Oak, Frank Lloyd Wright Ginkgo, Tidal Basin Yoshino Cherry, the Appomattox Courthouse White Ash, and more.

Closed for several years, Knock's Folly will be open for tours on May 18<sup>th</sup>. The original log house was constructed around 1753, and the attached three-story brick Federal townhouse, designed by Donaldson Yeates, was built in 1796. Knock's Folly is a significant example of Federal architecture.

Kent Museum

Kent Museum will be hosting several activities. Kent County Parks and Recreation will have lawn games, 4-H will have activities and displays, and Kennedyville Volunteer Fire Company will have their brush truck on display. The Maryland Agricultural Showcase Truck features hands-on activities for all ages. Tour Kent Museum and try out their new scavenger hunt. Charley's House, the last surviving dwelling from an African American community in Chestertown, will be open.

Two food trucks will be on hand at the event. The Blue Monkey, featuring Mexican food, will be at the Waterfront, and Little Connie's Kettle Corn will be at Kent Museum. All food is cash only. A shuttle will be running from Kent Museum to the Waterfront.

## Maryland Medicaid Health Choice Program

Administrative Care Coordination/Ombudsman Services

**Need help understanding your Medicaid benefits?**

Questions about Community Resources in the area?

Can't find a Dental Provider?

Can't find a Doctor?

**Contact the Administrative Care Coordination Unit (ACCU) at Kent County Health Department  
Call 410-778-7035****What is HealthChoice?**

HealthChoice is Maryland's Medicaid managed care program. Most people who qualify for Medicaid are required to enroll in a Managed Care Organization (MCO). It is best to select an MCO that your doctor participates with. If your doctor does not participate in the MCO you select or are assigned to, you will need to choose another primary care doctor (PCP) to oversee your medical care.

**What is a HealthChoice MCO?**

An MCO is a group of doctors, clinics, and other health care providers who work together to take care of HealthChoice members health care needs. MCOs are responsible to provide or arrange for most of your health care services including most pharmacy services. Some services such as mental health and substance use disorder services and certain drugs are covered by the State and not your MCO.

**The Administrative Care Coordinator serves as a local resource for all HealthChoice members. The ACCU can:**

- Help you understand your HealthChoice benefits and how to access services
- Explain your MCO choices
- Help you find a primary care doctor or specialist in your MCO's network (You can change PCPs at any time.)
- Help you find a dentist (Dental services for children and adults are covered through the Maryland Healthy Smiles Program.)
- Help link you to Medicaid transportation services (MCOs are not required to provide transportation.)
- Help you get your prescriptions filled
- Explain the health care services you can get out of network and without a referral, like prenatal care (if you already started prenatal care) and family planning services
- Explain your annual right to change MCOs

**More examples of help that is only a phone call away:**

- More examples of help that is only a phone call away
- Explain how to renew your Medicaid benefits through the Maryland Health Connection
- Explain how to keep your information updated and how to get a new Medicaid card if your card is lost or stolen
- Help you resolve a billing issue
- Explain your appeal & grievance rights

Target populations include children, pregnant and postpartum women, individuals with disabilities (physical, mental or developmental), and homeless individuals. The ACC can help anyone who is eligible for HealthChoice.

**Ombudsman**

The local Ombudsman acts as an advocate for your health care needs. An Ombudsman may contact you when there are complex medical issues involving care coordination with the MCO. The HealthChoice Program may also request that an Ombudsman contact you to ensure that any complaints that you have about your health care or MCO have been resolved.

**If you need help or have a complaint about your care, call the HealthChoice Help Line at 800-284-4510 or call your Kent County Health Department ACC/Ombudsman Program at 410-778-7035:**

## Dr. Truth

### Dear Dr. Truth:

My husband and I work extremely hard. We have a nice family and my husband is one of those really rare, wonderful husbands. I work strange hours and my husband holds down the fort - shopping cleaning and taking care of our children's needs. This brings me to the point. My husband has had to talk to our daughter's teacher on numerous occasions this year. She is a woman who has never let any grass grow under her feet. When I met with her about our daughter's issues, the only thing this woman would talk about was my husband and how great he is and how drawn to him she is. She loves his qualities and says he is a hunk and she "feels the chemistry" between them. I find this inappropriate and extremely unprofessional. If she talks like this to me, how does she talk to my husband?

### Fit to be Tied

### Dear Fit to be Tied,

She is beyond way out of line. Keep a short leash on this one. She would not be telling you these things if she didn't want to cause trouble. I hope you have eyes in the back of your head...**AND THAT'S THE TRUTH!**

# FLAG Facts

The United States Flag, adopted on June 14, 1777, is the fourth oldest national flag in the world. Denmark's flag, adopted in 1219, is the oldest.

- A flag expert is called a "vexillologist."
- The blue field on the U.S. Flag is called the "union."
- On Memorial Day (the last Monday in May), to honor all who died in battle, the flag should be displayed at half-staff until noon only, then raised to the top of the staff for the remainder of the day.
- Since 1834, the U.S. Flag has flown continuously next to the grave of the Revolutionary War hero, the Marquis de Lafayette, near Paris, France.
- June 14 was proclaimed Flag Day by President Woodrow Wilson in 1916. While Flag Day was a popular celebration in scores of communities for many years after Wilson's proclamation, it didn't receive its official Congressional designation until 1949.

The United States Flag should always be treated with the utmost care and respect. Remember, the flag represents a living country, and as such, is considered a living thing.

- Always display the flag with the blue union field up - never display the flag upside down, except as a distress signal.
- It is the universal custom to display the flag only from sunrise to sunset on buildings and on stationary flag staffs in the open. However, when a patriotic effect is desired, the flag may be displayed twenty-four hours a day if properly illuminated during the hours of darkness.
- Always hold the flag carefully - never let it touch anything beneath it: the ground, the floor, water or merchandise.
- Always keep the flag aloft and free - never carry it flat or horizontally.
- Always keep the flag clean and safe - never let it become torn, soiled or damaged.
- Always dispose of a flag properly, preferably through veterans' organizations.
- Always treat the flag with respect.

## 2024 Cicadas Primarily in Midwest

Cicadas will emerge this year, primarily in the Midwest, in late April and early May. Two different broods will emerge this year: 17-year Brood XIII in Northern Illinois and 13-year Brood XIX in parts of the Southeastern United States.

A dual emergence of these two broods occurs once every 221 years - the last occurrence was in 1803 and the next occurrence will be in 2245!

Although some cicadas may emerge on the Eastern Shore this year, noticeable periodical cicada emergence is not expected in this area until next year for Brood XIV, 2030 for Brood II, 2033 for Brood V, and 2038 for Brood X.

## Maryland's Striped Bass Emergency Closure Continues into May

The Maryland Department of Natural Resources reminds anglers that Maryland's striped bass fishing closure began on April 1<sup>st</sup> and runs until May 15<sup>th</sup> in the Chesapeake Bay and its tributaries.

Emergency regulations, enacted by the Atlantic States Marine Fisheries Commission and approved by Maryland General Assembly's Joint Committee on Administrative, Executive, and Legislative Review, were put in place to try to better protect large migratory striped bass after several years of below average spawning success. The regulations effectively closed Maryland's "trophy" season during which striped bass longer than 35 inches have been harvested in Chesapeake Bay waters.

As in past years, targeting striped bass in the Chesapeake Bay and its tidal tributaries has been prohibited throughout April. Catch and release is prohibited and anyone who accidentally catches a striped bass must release it into the water immediately. Emergency regulations have extended the closure - which prohibits all targeting - an additional two weeks, to May 15<sup>th</sup>. This violation is punishable by fines up to \$1,000 for the first offense, and up to one year in jail and/or a \$2,000 maximum fine for second offenses.

Given the changes, Maryland Natural Resources Police (NRP) encourages the public to familiarize themselves with the new regulations. NRP plans on regular enforcement patrols to identify striped bass targeting and out-of-season takes.

Similar to the annual striped bass closure in the last two weeks of July, where temperatures are at their peak in Maryland, these two weeks in May are closed for the benefit of the species. The closure in April and May is meant to encourage a healthy spawn as large striped bass make their way from the Atlantic Ocean and up the Chesapeake Bay to spawn in the same Maryland tributaries where they were spawned.

The closure is extended through May 31<sup>st</sup> in the Susquehanna Flats, Lower Susquehanna River, and North East River. This area is an important striped bass nursery in the upper Bay that in recent years has remained closed to targeting later than the rest of the Bay.

Violation of this closure is punishable by fines up to \$1,000 for the first offense, and up to one year in jail and/or a \$2,000 maximum fine for second offenses.

Anglers are encouraged to target other fish during this emergency closure. Blue catfish and snakeheads are invasive species that have a sportfishing following and harvesting them contributes to a healthier ecosystem in the Bay. Tips and methods for fishing blue catfish can be found on the DNR website.

In the Chesapeake Bay, early summer regulations return on May 16<sup>th</sup> for certain areas, and on June 1st for the entirety of the Bay and its tributaries.

More information on Maryland's state fish can be found on DNR's striped bass webpage. The department also shares guidance on responsible catch and release, as well as an advisory forecast for fishing striped bass in the summer. Visit [www.news.maryland.gov/dnr](http://www.news.maryland.gov/dnr).

## Who's Cookin' with Carla?

### LARD PIE CRUST

- 1-1/2 Cups All-Purpose Flour
- 1 Pinch Salt
- 1/2 Cup Lard Leaf Lard
- 3 to 4 Tbsp Ice Cold Water

Stir together flour and salt. Cut in lard until the mixture is crumbly. Add just enough ice cold water to make the mixture come together to form a dough. Pat the mixture into a flat disk and wrap it with plastic; chill for a half hour. Remove dough from refrigerator and roll into a thin circle, to fit a 9-inch pie pan. To help make the crust flakier, place the pie plate with the rolled out dough in the refrigerator for another 15 minutes. Fill the pie and cook appropriately for the filling being used. Makes a 9-inch pie crust; double the recipe for a double crust pie.

To blind bake the crust without fillings, preheat the oven to 425°F. Prick the crust a few times, line with parchment paper, fill with dried beans or pie weights, and bake for 12 minutes. Carefully remove the beans or weights and the paper; cook for 8 to 10 minutes more for a partially baked crust, or 10 to 12 minutes more for a fully baked pie crust.

The pie crust dough can be made ahead of time, wrapped in plastic, and stored in the refrigerator for up to three days, or freeze it up to three months. Defrost frozen dough in the refrigerator overnight before using. Use a good quality rendered lard, usually in the grocery store next to shortening or butter. You can also ask for lard at the meat counter or at a local butcher shop.

## NEW: LOWER LEAD ACTION LEVEL

To better protect Maryland children, effective October 28, 2022, the blood lead level of concern was lowered to 3.5 micrograms/deciliter. A lower level is a reflection of the progress Maryland has made in reducing childhood lead exposures. This new lower level means there will be additional children identified who may benefit from state and local resources available to help families with lead-exposed children.

Acceptable blood levels will decrease from 5 micrograms/deciliter to 3.5 micrograms/deciliter.

**No Level of Lead is Safe** ↓

**Get Your Child Tested**  
**Get Your Home Tested**  
**Get Help**

<https://bit.ly/MDELeadProgram>

Because there is no safe level of lead in a child's body, all children in Maryland are required to be tested for lead at ages one and two years or when lead exposure is suspected. Your child may be tested for lead as part of their regular care by a doctor or clinic. Be sure to ask your doctor or clinic about testing your child for lead.

If a test for lead is positive, your doctor will provide guidance and will perform follow-up testing for your child. Be sure to follow your doctor's directions carefully and allow officials to provide services, including educational recommendations, to help limit future lead exposure, information on healthy nutritional choices, environmental testing of your home and services to reduce lead-based paint hazards.

## Mom's CLOTHESLINE Rules

- The clothesline must be wiped before hanging clothes.
- Socks must be hung by their toes.
- Hang sheets and towels on the outside line so "unmentionable" clothing is hidden.
- Clothes must hung in order - whites hung first and with other whites.
- Shirts must always hang by the tail - never the shoulders.

- Line up the clothes so that each item shares one of the clothespins with another item.
- It doesn't matter if it is below zero outside - the clothes will still be hung on the line. They'll just "freeze-dry"!
- Clothespins must be gathered when clothing is removed from the line. Never leave clothespins on the line.

*Sally Brompton* **WEEKLY HOROSCOPE**  
Your weekly horoscope by Sally Brompton • May 13-19, 2024

**If Your Birthday Is This Week:** Your way with words is one of your strengths but you cannot expect others to agree with everything you say. Don't waste time trying to prove that you are right and other people are wrong this year - focus all your energy on having fun.

**ARIES (March 21 - April 20):**  
You make your own luck in life, so don't feel too sorry for someone who is clearly failing because they have not been trying hard enough. The best way you can help them over the coming week is simply by being a good example.

**TAURUS (April 21 - May 21):**  
Cosmic activity in your sign continues to turn your life upside down in the best possible ways. A Sun-Uranus link will encourage you to throw caution to the wind this week and attempt something you never believed was possible - until now!

**GEMINI (May 22 - June 21):**  
Your ability to look beyond the obvious and see things that other people have missed will work in your favor over the next few days. Don't be too eager to share what you discover though - use it to improve your own position first.

**CANCER (June 22 - July 23):**  
Monday's Sun-Uranus union will inspire you to look beyond what less adventurous types consider to be "normal" and try something out of the ordinary. The more you strive to be different from your rivals the more of an advantage you will have.

**LEO (July 24 - Aug. 23):**  
Don't worry about the direction your life appears to be taking because the universe has your back and in a matter of days it will become crystal clear why certain events had to happen. What others see as a loss you will see as a very big gain.

**VIRGO (Aug. 24 - Sept. 23):**  
Deep down you know all the answers, or at least the ones worth having. Make it your aim over the next few days to stop thinking about a dozen different matters at once, so those answers get a chance to filter up from your subconscious mind.

**LIBRA (Sept. 24 - Oct. 23):**  
A change that you have been fearing can no longer be avoided but once it occurs you will wonder why you got so worked up about it. Compared to other situations you have dealt with in the past this one won't be much of a challenge.

**SCORPIO (Oct. 24 - Nov. 22):**  
A Sun-Uranus link in your opposite sign suggests that someone you have been close to for a very long time is about to do something you would not have expected of them. Maybe that's your fault for thinking they should be as predictable as you!

**SAGITTARIUS (Nov. 23 - Dec. 21):**  
You have been doing too much of late and need to cut back on at least some of your commitments. Stop making changes that save a minute or two here and there and get rid of something that will save hours of your time every day.

**CAPRICORN (Dec. 22 - Jan. 20):**  
Anyone who thinks you are too set in your ways to move with the times will be amazed at how quickly you adapt to changing circumstances. Seek out situations where you can prove to supporters and critics alike how adventurous you can be.

**AQUARIUS (Jan. 21 - Feb. 19):**  
You would like to believe that a colleague can be trusted but in the back of your mind alarm bells are ringing. Do not ignore them! The less influence you allow others to have over your decisions the less likely it is they will let you down.

**PISCES (Feb. 20 - Mar. 20):**  
You will have dozens of great ideas this week and at least one of those ideas has the potential to transform your life on every level. Don't be afraid to let important people know what you are thinking. Their support could make all the difference.

## Mike Junior Blues Band Returns to The Mainstay May 17<sup>th</sup>

On Friday, May 17<sup>th</sup> at 8pm The Mainstay in Rock Hall presents another night of outstanding Blues music with return of the Mikey Junior Blues Band. This program is scheduled for the outdoor performance space located to the rear of The Mainstay, weather permitting.

The Mikey Junior Blues Band will perform at The Mainstay on May 17<sup>th</sup> at 8pm.

Surveys of the Mainstay's large email list consistently endorse and request more Blues programs in the venue's year-round music schedule.

Mikey Junior – Blues harmonica player, vocalist, and frontman for the group – burst onto the Blues scene less than a dozen years ago and since that time has amassed an impressive repertoire of classic Blues music, earning praise from both music fans and industry insiders.

Self-taught from his impressive collection of old Blues

vinyl LPs, Mikey was a full-time musician before he even graduated high-school. By the time he was in his early twenties, seasoned players were taking notice and it wasn't long before one Blues society after another scrambled to get him to perform on their stage. Before long, Mikey was a staple of the summer Blues circuit on the East Coast.

For a musical style that has historically placed so much weight on the lineage of legendary Blues men, the passing of more and more of these old masters poses a dire question: What is the future of the Blues and who will lead the charge? For fans who follow the touring Blues circuit, that question is routinely answered every night Mikey Junior hits the stage. His infectious personality, muscular vocals, and absolute command of both the diatonic and chromatic harmonicas are exactly what Blues music needs today – a front man who is talented, engaging, and vital. He attacks the more traditional diatonic harp with a vengeance, but is "smooth as Southern Comfort on ice" when playing the chromatic harmonica. In doing so he convincingly entices new generations of music lovers to love something old-school.

Tickets are \$20 in advance of the show and can be purchased online at [www.mainstay-rockhall.org](http://www.mainstay-rockhall.org). Phone reservations are accepted by calling 410-639-9133 (tickets reserved by phone are \$25 when paid at the door). The Mainstay is located at 5753 North Main Street in Rock Hall.

May 14, 1954 - The Kent County News  
For the first time in the long history of Kent County, the insurance coverage carried on the public property administered by the County Commissioners has been completely revised and modernized in accordance with accepted business practices. The County Commissioners announced Tuesday that a complete survey of the county insurance coverage has been made by experts of the Maryland Insurance Department at no cost to the taxpayers and a substantial saving will be effected. In the new setup, policies are on a five-year basis rather than three as in the past, which in itself will result in a considerable saving.

## Governor Moore Taps Sultana for New Maryland Outdoor Learning Partnership

es with contemporaries around the state and work with them to shape Maryland's outdoor learning goals," said Sultana Vice President, Chris Cerino, who will lead

On April 22<sup>nd</sup> – Earth Day – Maryland Governor Wes Moore signed an Executive Order establishing the Maryland Outdoor Learning Partnership. The Partnership – an interagency collaboration including state agencies, federal partners, non-profit organizations, and formal education partners – is charged with ensuring that Maryland students have meaningful access to outdoor education about the environment, climate, and the natural world. The Sultana Education Foundation (SEF) was one of approximately a dozen listed nonprofit partners included in the Governor's Executive Order.

SEF's participation in the Outdoor Learning Partnership. "Over the past 20 years, SEF has introduced more than 150,000 students to the Chesapeake Bay, encouraging them to become stewards of this unique natural resource. We see this partnership as another opportunity to enhance our existing programs, provide professional development opportunities for area teachers, and work with other non-profit organizations to expand the impact of outdoor education in Maryland."

## UM Shore Regional Health Receives 4<sup>th</sup> Magnet® Designation

University of Maryland Shore Regional Health (UM SRH), a member organization of the University of Maryland Medical System, has earned re-designation as a Magnet® organization from the American Nurses Credentialing Center (ANCC). ANCC's Magnet Recognition Program® distinguishes health care organizations that meet rigorous standards for quality patient care, nursing excellence, and innovations in professional nursing practice. The coveted recognition is the highest national honor for professional nursing practice and requires re-designation every four years.

The 2024 Magnet® designation includes Shore Regional Health at Cambridge, Shore Medical Centers at Chestertown and Easton, Shore Emergency Center at Queenstown, and UM Shore Medical Group medical practices. This year's re-designation marks the hospital system's fourth consecutive Magnet® designation. UM SRH received its first designation in 2009 for UM Shore Medical Centers at Easton and Cambridge. Achieved by less than 10% of all registered hospitals in the U.S., Magnet® recognition is the ultimate distinction for high quality nursing care. At present, UM SRH is one of only nine health organizations in Maryland – including both campuses of the University of Maryland Medical Center (UMMC) in Baltimore – that are Magnet® designated.

Surrounded by UM SRH team members both virtually and in-person, Jenny Bowie, Chief Nursing Officer and Senior Vice President of Nursing and Patient Care Services, received the news from ANCC officials via a videoconference held in the Board room of UM Shore Medical Center at Easton.

Chestertown team members were logged into the videoconference with ANCC announcing Magnet® re-designation.

"Sustaining a Magnet® culture to reach a fourth consecutive Magnet® designation is a testament to the dedication and commitment of this organization to provide quality, compassionate care while striving for excellence," said Bowie. "I am immensely proud of the entire Shore Regional Health team."

UM Shore Regional Health's Magnet® re-designation process included an extensive application and documentation process, followed in early March 2024 by a three-day visit to all sites conducted by a team of appraisers from ANCC. "Over the three-day site visit, the Magnet® appraisers heard firsthand from the SRH team the countless ways SRH makes a difference," said Kathy Elliott, Director of Professional Nursing Practice/Magnet® program. "Every encounter with the appraisers validated what they had read in the application document."

Maryland Medicaid Health Choice Program  
Administrative Care Coordination/Ombudsman Services

# Need Help Understanding Your Medicaid Benefits?

Contact the Administrative Care Coordination Unit (ACCU) at Queen Anne's County Department of Health

**Call 443-262-4482 or 443-262-4456**

**Questions about Community Resources in the area?**

**Can't find a Dental Provider?**

**Can't find a Doctor?**

**What is HealthChoice?**

HealthChoice is Maryland's Medicaid managed care program. Most people who qualify for Medicaid are required to enroll in a Managed Care Organization (MCO). It is best to select an MCO that your doctor participates with. If your doctor does not participate in the MCO you select or are assigned to, you will need to choose another primary care doctor (PCP) to oversee your medical care.

**What is a HealthChoice MCO?**

An MCO is a group of doctors, clinics, and other health care providers who work together to take care of HealthChoice members health care needs. MCOs are responsible to provide or arrange for most of your health care services including most pharmacy services. Some services such as mental health and substance use disorder services and certain drugs are covered by the State and not your MCO.

**The Administrative Care Coordinator serves as a local resource for all HealthChoice members. The ACCU can:**

- Help you understand your HealthChoice benefits and how to access services
- Explain your MCO choices
- Help you find a primary care doctor or specialist in your MCO's network (You can change PCPs at any time.)
- Help you find a dentist (Dental services for children and adults are covered through the Maryland Healthy Smiles Program.)
- Help link you to Medicaid transportation services (MCOs are not required to provide transportation.)
- Help you get your prescriptions filled
- Explain the health care services you can get out of network and without a referral, like prenatal care (if you already started prenatal care) and family planning services
- Explain your annual right to change MCOs

**More examples of help that is only a phone call away:**

- More examples of help that is only a phone call away
  - Explain how to renew your Medicaid benefits through the Maryland Health Connection
  - Explain how to keep your information updated and how to get a new Medicaid card if your card is lost or stolen
  - Help you resolve a billing issue
  - Explain your appeal & grievance rights
- Target populations include children, pregnant and postpartum women, individuals with disabilities (physical, mental or developmental), and homeless individuals. The ACC can help anyone who is eligible for HealthChoice.

**Ombudsman**

The local Ombudsman acts as an advocate for your health care needs. An Ombudsman may contact you when there are complex medical issues

involving care coordination with the MCO. The HealthChoice Program may also request that an Ombudsman contact you to ensure that any complaints that you have about your health care or MCO have been resolved.

**If you need help or have a complaint about your care, call the HealthChoice Help Line at 800-284-4510 or call your Queen Anne's County Health Department ACC/Ombudsman Program at 443-262-4482 or 443-262-4456:**

**Maryland State Representatives from District 36**

**District 36 includes Caroline, Cecil, Kent & Queen Anne's Counties**

The State Government funds a myriad of services on which seniors depend. Functions from nursing home oversight to utility regulation to teacher retirement programs fall within the State's purview. Half of all Medicaid funds are provided by the State as well as a large amount of the costs to maintain senior centers, meals-on-wheels, and local transit buses. Keep in touch with your State representatives to let them know that seniors vote.
